

DESIGN GUIDANCE AND CODE REPORT

Following analysis of Little Hallingbury's built environment, six different character areas have been identified.

HISTORIC CORE
NORTHERN EXTENSION
SOUTHERN EXTENSION
WRIGHT'S GREEN
VILLAGE PERIPHERY
RURAL HINTERLAND

These codes aim to guide any changes or development within the Neighbourhood Area to ensure the local character is respected whilst still allowing space for innovation.

Future Planning Application, including those from householders, should refer to the relevant character area section when considering any new development or extension.
